

Recycled Compressed Wood Pallet

Scenix pallet supplies high quality recycled compressed wood pallet. We are professional manufacturer for innovative presswood pallets and compressed wood pallet machines in Qingdao, China. Customer satisfaction is our biggest goal.

Product Introduction

We keep improving and perfecting our merchandise and repair. At the same time, we get the job done actively to do research and progress for OEM Customized China Pallet Feet Block Compressed Pallet Wooden Pallet Making Machine, With a speedy advancement and our prospects appear from Europe, United States, Africa and everywhere in the world. Welcome to our factory and welcome your purchase, for even further inquires make sure you never hesitate to contact us! OEM Customized China Pallet Machinery, Pallet Production Line, If you are for any reason unsure which product to select, do not hesitate to contact us and we are going to be delighted to advise and assist you. This way we are going to be providing you with all the knowledge needed to make the best choice. Our company strictly follows "Survive by good quality, Develop by keeping good credit." operation policy. Welcome all the clients old and new to visit our company and talk about the business. We have been looking for more and more customers to create the glorious future.

Recycled Compressed Wood Pallet

Introduction of Recycled Compressed Wood Pallet

Pallet is the horizontal platform device for the loading, stacking, and transporting of goods and products as unit loads. Compressed wood pallets use wood or non-wood as raw materials. After the raw materials are crushed, dried and a certain amount of rubber fuel is applied, these scraps are laid in a specific mold for one-time compression molding. Compared with ordinary solid wood pallets, this kind of pallet has the advantages of light weight, high strength, good overlap, not easy to deform, no metal, and exempt from quarantine. Its raw materials can be scrap wood products, trail wood, branch wood or agricultural and sideline products

Specification of Recycled Compressed Wood Pallet

PRODUCT PARAMETERS	
Material:	high quality wood fiber
Synthetic resin:	high strength environmentally adhesive
Load:	dynamic load 2000kg / static load 5000kg
Fork hole height:	90mm
Manufacturing:	molded in one solid piece from dried wood fibers
Into the fork:	4 way entry/2 way entry
Specifications:	1100x1100mm / 1200x800mm / 1200x1000mm/1050x1050mm(4 way)
	1140x980mm / 1300x1000mm(2 way)
Fumigation certificate:	no fumigation, can be exported directly

Presswood pallet

Presswood pallet is the full name of plant fiber molded flat industrial pallet, with the overall structure. And the surface of pallet is smooth and flat, to meet the transport of various goods.

Wooden pallet

Wooden pallets use logs as the material, through the drying and modeling, to eliminate the internal stress, and then cutting, planing, sanding and other finishing processing, using nails to connect the wood plate, and the last is the wax sealing process.

Product Application

Dynamic load capacity: over 2 Tons

Static load capacity: over 5 Tons

Moisture content: ≤8%

Recycled Compressed Wood Pallet Used for the storage, packing and transportation of goods in many industries, such as paper making, building material, chemical industry, electronics industry, hardware, food, pharmaceutical industry. Lower price and weight than traditional wood wooden pallet

Details Of Recycled Compressed Wood Pallet
